Intro vocals and guitar only – full band joins at chorus

You thought you had a choice **A**
To live at the top or down on the street **D**
Nobody heard your voice **A**
As you roamed round with your aching feet **D A**
Ain't it a shame **G (D)**
Nobody else for you to blame **A**

CHORUS

Trial by Fire **G C**
A fight between need and desire **G C**
No use to pray for rain **Am D**
Listen now they're calling your name for that **G C**
Trial by fire **G C**
So little time remains **Am D**
And you can't put out the flames **D (A)**

Thought you were in the lead **A**
But take a look in that rear-view mirror **D**
You give so much until you bleed **A**
And all the time, think that you're the winner **D A**
But they call your name **G (D)**
From the passing lane **A**

CHORUS >> *Solo on verse*

Come on brave boy, take a look **A**
Make a choice of direction **D**
Take a leaf from my book **A**
No guarantee of satisfaction **D A**
No need to shout **G (D)**
I can, I can't get you out - of this **A**
